PROJECTS

Shopify Custom Website Development

Developed multiple high-demand **Shopify-based eCommerce websites** for Australian businesses, focusing on custom themes, performance optimization, and seamless user experience.

A full showcase of my work is available at nipunapathirana.online

Key Websites : [Hampers Galore](#), [Healthy Hampers](#), [Tastebuds](#)

Key Features: Custom Shopify theme development, payment gateway integration, advanced product filtering, and mobile-responsive design.

Technologies Used: Shopify Liquid, JavaScript, HTML, CSS, API integrations.

CURRENT

Custom WordPress Website Development

- Developed multiple high-demand custom WordPress websites tailored for various industries, including travel, IT services, outsourcing, legal consultancy, and healthcare.
- Delivered responsive, SEO-optimized, and performance-driven websites to enhance user engagement and business growth.
- Integrated custom themes, plugins, and advanced functionalities based on client requirements. Ensured mobile-friendliness, security, and scalability for long-term sustainability.
- A full showcase of my work is available at nipunapathirana.online

Notable Projects: [Laze Travel](#), [NetExper](#), [The Global BPO](#), [Goycon](#), [The Doreen Dentist](#)

Ceylon Nooks - Online travel and related service portal

An all-in-one online travel services platform built with Laravel (backend) and Svelte JS (frontend), offering travel guide management, hotel bookings, and car rentals. I lead project management and contribute to frontend development.

Key Features: Tour and hotel bookings, Tour management, Hotel Management and payment gateway integration.

Technologies Used: Laravel (Backend), Svelte JS and React JS (Frontend), MySQL, RESTful APIs.

SL Auction (www.slauction.lk)

SL Auction is an online auction platform designed to facilitate seamless and secure bidding experiences. Developed with a **Laravel backend** and **Nuxt.js frontend**, it offers real-time auction management, user authentication, and secure payment integration.

Key Features: Live bidding system, user registration, product listing, automated auction timers, and payment gateway integration.

Technologies Used: Laravel (Backend), Nuxt.js (Frontend), MySQL, RESTful APIs.
